

Aqua-Arena Water Trailer Riding Arena Dust Control

Designed for reliable arena maintenance, the Aqua-Arena Water Trailer provides a steady spray of moisture, helping you create the perfect footing and helping with rider safety. The Aqua-Arena Water Trailer makes keeping the right moisture content easy, with a rear spray bar to give you superior water distribution control. The powerful stainless steel spray nozzle is adjustable from 8' wide to 35' and sprays approximately 25' deep from the rear. The nozzle is perfect for arenas, tracks, roads, and parking areas. The maximum flow per nozzle is 100 GPM. Multiples can be added, should you wish to spray from the sides for swale / sod planting watering or beautification projects.

Our polyethylene tanks are durable enough for indoor/outdoor arena, municipal dust abatement uses and are warrantied. Aqua-Arena Water Trailers are available in sizes from 110 to 2,010 gallons. Ask about features and upgrades to customize arena trailers for your specific needs.

Aqua-Arena Water Trailer

What makes our Aqua-Arena Water Trailers different*?

We've got you covered

Very few (if any) of our competitors believe in their manufacturing process enough to offer up to 5 year warranty on their trailers. But our trailers are different. We take pride in providing the best product possible, delivered to your door. In addition to our manufacturer's frame warranty, we use only Norwesco tanks, which provide a 3 year non-prorated tank warranty. Most all other tank manufacturers offer a prorated warranty, meaning if the tank is 75% through its warranty period that the warranty only covers 25% of the cost to replace the warranted tank. However, contrary to the industry standard, **we use tanks with a non-prorated warranty.** What that means to you is that 100% of the tank is covered for the entire warranty period.

Stronger than the average arena

Our trailers are actually built to withstand use with heavier liquids. This gives you flexibility and peace of mind in knowing that your multi-purpose trailer can safely handle whatever you need of it. The frame has been designed for high strength and active use with a manufacturing process that avoids cutting the channel iron wherever possible. Instead, the iron is bent and formed into shape, eliminating common weak points that are common with many other trailer frames. To add extra strength and ensure that there are no frame issues where the channel iron is bent, we reinforce it along the outside edge as well.

Things you don't see do matter

Have you ever purchased a trailer, only to find after a few months that rust is already showing? That results from a manufacturer that's more concerned with speed than with quality. You won't find that with our Arena Trailers. Our trailers get a good scrubbing before the powder coat paint finish is applied. Attention to even little details like this help ensure a long life for your trailer and are important to us.

Freight savings, shorter lead times, delivered fully assembled

Select the shipping location that best fits your needs for freight and lead time. We ship from AL, AZ, CA, KS, KY, MN, ND, NE, WA. There's no need to wait for the ridiculous lead times of today's world - we always keep a supply of the Aqua-Arena Trailers in production.

**Applies to the 300 to 2,010 gallon Aqua-Arena Water Trailers. There may be some differences on the warranties on the smaller trailers. Ask for more information.*

Aqua-Arena Water Trailer

Features

- 110-2,010 Gallon Capacities

Aqua-Arena Water Trailer

More Than an Arena Trailer

With a few extra accessories, the Aqua-Arena Trailer quickly becomes a multi-purpose water trailer. Add a garden hose, nozzle, and hose reel, and you have a mobile washing station that can supply water for spraying out stalls, and washing livestock. Add a pressurized hose bib, fire hose, fire nozzle, and reel and you have an emergency water supply that can tackle small fires and spray down targeted areas. Use the rear spray nozzle to pre-wet the grounds ahead of forest fires. With our nearly unlimited line of accessories, you can truly customize this water trailer to what you need.

Extras to Make the Job Faster, Easier, Better.

Spray Guns

Banjo Fittings

Hose Bibs

Bulldog Jacks

Wireless-Remote

Fire Hose & Nozzle

Hose Reels

Ladders

These are only a few of your options! To see a full list of water trailer equipment and accessory choices, please see: [Water Trailer Accessories \(pdf\)](#) or contact us!

We are here to serve you. Just call or email with your project specifications and details, and we'll do the rest. Our goal is to provide the best solution for your project, with materials delivered on time at a price that fits nicely within your budget.
